

Would a trip to the hospital leave your finances in serious condition?

Hospital indemnity insurance from Unum can help.

Frank's story

Frank works hard to pay for the things that matter to him and his family. So when his appendix ruptured, he worried what it would mean to his finances.

His recovery kept him in the hospital for a few days, but Frank's hospital indemnity coverage protected his savings. A lump-sum benefit helped Frank with the unexpected costs — so he could get back to work with fewer worries.

Who's at risk?

- More than 1 in 5 adults visited the ER at least once in 2010.¹
- The average facility price for a hospital stay was \$15,674 in 2011 — a 13.1% increase from 2009.²

Two reasons to buy this coverage at work

1. You get affordable rates when you buy this coverage through your employer, and the premiums are conveniently deducted from your paycheck.
2. Coverage becomes effective on the first day of the month in which payroll deductions begin.

This coverage can complement your health insurance to help you pay for the costs associated with a hospital stay. It can also provide funds that can be used to help pay the out-of-pocket expenses your medical plan may not cover, such as co-insurance, co-pays and deductibles.
