2017 Preventive Schedule

PLAN YOUR CARE: KNOW WHAT YOU NEED AND WHEN TO GET IT

Preventive or routine care helps us stay well or finds problems early, when they are easier to treat. The preventive guidelines on this schedule depend on your age, gender, health and family history. As a part of your health plan, you may be eligible to receive some of these preventive benefits with little to no cost sharing when using in-network providers. Make sure you know what is covered by your health plan and any requirements before you receive any of these services.

Some services and their frequency may depend on your doctor's advice. That's why it's important to talk with your doctor about the services that are right for you.

Colon Cancer Screening (Including Colonoscopy)	 Ages 50 and older: Every 1 to 10 years, depending on screening test High-risk: Earlier or more frequently
Certain Colonoscopy Preps With Prescription	Ages 50 and older: Once every 10 yearsHigh-risk: Earlier or more frequently
Diabetes Screening	High-risk: Ages 40 and older, once every 3 years
Hepatitis B Screening	High-risk
Hepatitis C Screening	High-risk
Lung Cancer Screening (Requires use of authorized facility)	Ages 55 to 80 with 30-pack per year history: Once a year for current smokers, or once a year if currently smoking or quit within past 15 years
Mammogram	Ages 40 and older: Once a year including 3-D
Osteoporosis (Bone Mineral Density) Screening	Ages 60 and older: Once every 2 years
Pap Test	 Ages 21 to 65: Every 3 years, or annually, per doctor's advice Ages 30 to 65: Every 5 years if combined Pap and HPV are negative Ages 65 and older: Per doctor's advice
Sexually Transmitted Disease (STD) Screenings (Chlamydia, Gonorrhea,	Sexually active males and females

^{*} Routine checkup could include health history; physical; height, weight and blood pressure measures; body mass index (BMI) assessment; counseling for obesity, fall prevention, skin cancer and safety; depression screening; alcohol and drug abuse, and tobacco use assessment; and age-appropriate guidance.

HIV and Syphilis)

Adults: Ages 19+

- 10.0	its. Ages 151							
lmmu	nizations							
†	Chicken Pox (Varicella)	Adults with no history of chicken pox: One 2-dose series						
† 🛊	Diphtheria, Tetanus (Td/Tdap)	One-time TdapTd booster every 10 years						
† 💠	Flu (Influenza)	Every year (Must get at your PCP's office or designated pharmacy vaccination provider; call Member Service to verify that your vaccination provider is in the Highmark network)						
† *	Haemophilus Influenzae Type B (Hib)	For adults with certain medical conditions to other serious infections; this vaccine does no does not replace the annual flu vaccine						
† †	Hepatitis A	At-risk or per doctor's advice: One 2-dose ser	ries					
† 🛊	Hepatitis B	At-risk or per doctor's advice: One 3-dose ser	ries					
† 🛊	Human Papillomavirus (HPV)	Ages 9 to 26: One 3-dose series						
† 🛊	Measles, Mumps, Rubella (MMR)	One or two doses						
† †	Meningitis*	At-risk or per doctor's advice						
† *	Pneumonia	High-risk or ages 65 and older: One or two do	oses, per lifetime					
† *	Shingles (Zoster)	Ages 60 and older: One dose						
Prever	ntive Drug Measures That Require a	Doctor's Prescription						
† ‡	Aspirin	Ages 50 to 59 to reduce the risk of stroke and	l heart attack					
*	Folic Acid	Women planning or capable of pregnancy: D .4 to .8 mg of folic acid	Daily supplement containing					
*	Raloxifene Tamoxifen	At-risk for breast cancer, without a cancer dia	agnosis, ages 35 and older					
† †	Tobacco Cessation (Counseling and medication)	Adults who use tobacco products						
† 🛊	Vitamin D Supplements	Ages 65 and older who are at risk for falls						
Prever	ntive Care for Pregnant Women							
*	Screenings and Procedures	 Gestational diabetes screening Hepatitis B screening and immunization, if needed HIV screening Syphilis screening Smoking cessation counseling One depression screening for pregnant women and one for postpartum women 	 Rh typing at first visit Rh antibody testing for Rh-negative women Tdap with every pregnancy Urine culture and sensitivity at first visit 					
Prever	ntion of Obesity, Heart Disease and							
† *	Adults With BMI 25 to 29.9 (Overweight) and 30 to 39.9 (Obese) Are Eligible For:	 Additional annual preventive office visits specifically for obesity and blood pressure measurement Additional nutritional counseling visits specifically for obesity 	 Recommended lab tests: ALT AST Hemoglobin A1c or fasting glucose Cholesterol screening 					

^{*} Meningococcal B vaccine per doctor's advice.

2017 Preventive Schedule

PLAN YOUR CHILD'S CARE: KNOW WHAT YOUR CHILD NEEDS AND WHEN TO GET IT

Preventive or routine care helps your child stay well or finds problems early, when they are easier to treat. Most of these services may not have cost sharing if you use the plan's in-network providers. Make sure you know what is covered by your health plan and any requirements before you schedule any services for your child.

It's important to talk with your child's doctor. The frequency of services, and schedule of screenings and immunizations depends on what the doctor thinks is right for your child.

Tuberculin Test									Per doc	tor's advi	ce	

^{*} Routine checkup could include height and weight measures, behavioral and developmental assessment, and age-appropriate guidance. ** To confirm new diagnosis of high blood pressure before starting treatment. *** Covered when performed in doctor's office by having the child read letters of various sizes on a Snellen chart. Includes instrument vision screening for ages 3, 4 and 5 years. A comprehensive vision exam is performed by an ophthalmologist or optometrist and requires a vision benefit. **** Must get at your PCP's office or designated pharmacy vaccination provider. Call Member Service to verify that your vaccination provider is in the Highmark network. ***** Meningococcal B vaccine per doctor's advice.

Preventive Drug Measures That Require a Doctor's Prescription

Oral Fluoride

For preschool children older than 6 months whose primary water source is deficient in fluoride

Prevention of Obesity and Heart Disease

Children With a BMI in the 85th to 94th Percentile (Overweight) and the 95th to 98th Percentile (Obese) Are Eligible For:

- Additional annual preventive office visits specifically for obesity
- Additional nutritional counseling visits specifically for obesity
- · Recommended lab tests:
 - Alanine aminotransferase (ALT)
 - Aspartate aminotransferase (AST)
 - Hemoglobin A1c or fasting glucose (FBS)
 - Cholesterol screening

Women's Health Preventive Schedule

(For plans renewed on or after Aug. 1, 2012, or for group plans that have chosen to cover these benefits)

Services	
Well-Woman Visits (Including preconception and first prenatal visit)	Up to 4 visits each year for age and developmentally appropriate preventive services
Contraception (Birth Control) Methods and Discussion*	All women planning or capable of pregnancy
Screenings/Procedures	
Diabetes Screening	 All women between 24 and 28 weeks pregnant High-risk: At the first prenatal visit
HIV Screening and Discussion	All sexually active women: Once a year
Human Papillomavirus (HPV) Screening Testing	Beginning at age 30: Every 3 years
Domestic and Intimate Partner Violence Screening and Discussion	Once a year
Breast-feeding (Lactation) Support and Counseling, and Costs for Equipment	During pregnancy and/or after delivery (postpartum)
Sexually Transmitted Infections (STI) Discussion	All sexually active women: Once a year

^{*} FDA-approved contraceptive methods may include sterilization and procedures as prescribed. One form of contraception in each of the 18 FDA-approved methods is covered without cost sharing. If the doctor recommends a clinical service or FDA-approved item based on medical necessity, there will be no cost sharing.

Information About the Affordable Care Act (ACA)

This schedule is a reference tool for planning your family's preventive care, and lists items and services required under the Affordable Care Act (ACA), as amended. It is reviewed and updated periodically based on the advice of the U.S. Preventive Services Task Force, laws and regulations, and updates to clinical guidelines established by national medical organizations. Accordingly, the content of this schedule is subject to change. Your specific needs for preventive services may vary according to your personal risk factors. Your doctor is always your best resource for determining if you're at increased risk for a condition. Some services may require prior authorization. If you have questions about this schedule, prior authorizations or your benefit coverage, please call the Member Service number on the back of your Member ID card.

¹Information About Children's Health Insurance Program (CHIP)

Because the Children's Health Insurance Program (CHIP) is a government-sponsored program and not subject to ACA, certain preventive benefits may not apply to CHIP members and/or may be subject to copayments.

The ACA authorizes coverage for certain additional preventive care services. These services do not apply to "grand-fathered" plans. These plans were established before March 23, 2010, and have not changed their benefit structure. If your health coverage is a grandfathered plan, you would have received notice of this in your benefit materials.

Highmark Blue Shield is an independent licensee of the Blue Cross and Blue Shield Association.

Discrimination is Against the Law

The Plan complies with applicable Federal civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability, or sex, including sex stereotypes and gender identity. The Plan does not exclude people or treat them differently because of race, color, national origin, age, disability, or sex assigned at birth, gender identity or recorded gender. Furthermore, the Plan will not deny or limit coverage to any health service based on the fact that an individual's sex assigned at birth, gender identity, or recorded gender is different from the one to which such health service is ordinarily available. The Plan will not deny or limit coverage for a specific health service related to gender transition if such denial or limitation results in discriminating against a transgender individual. The Plan:

- Provides free aids and services to people with disabilities to communicate effectively with us, such as:
 - Qualified sign language interpreters
 - Written information in other formats (large print, audio, accessible electronic formats, other formats)
- Provides free language services to people whose primary language is not English, such as:
 - Qualified interpreters
 - Information written in other languages

If you need these services, contact the Civil Rights Coordinator. If you believe that the Plan has failed to provide these services or discriminated in another way on the basis of race, color, national origin, age, disability, or sex, including sex stereotypes and gender identity, you can file a grievance with: Civil Rights Coordinator, P.O. Box 22492, Pittsburgh, PA 15222, Phone: 1-866-286-8295, TTY: 711, Fax: 412-544-2475, email: CivilRightsCoordinator@highmarkhealth. org. You can file a grievance in person or by mail, fax, or email. If you need help filing a grievance, the Civil Rights Coordinator is available to help you. You can also file a civil rights complaint with the U.S. Department of Health and Human Services, Office for Civil Rights electronically through the Office for Civil Rights Complaint Portal, available at https://ocrportal.hhs.gov/ocr/portal/lobby.jsf, or by mail or phone at:

U.S. Department of Health and Human Services
